Jackson Fusion Series

THE STANDARD IN OUTFITS

Our Fusion outfits have Swarovski crystals inlaid in our microfiber uppers for lightweight and stylish design. U-shaped cuff pattern and adjusted back height allows for maximum flexibility without losing support. Our Fusion Outfits are made using Jackson's Elite last which provides a wider toe box to reduce pressure, and narrower heels for better heel-lock and stability.

Fusion Sole

The Fusion Sole is constructed from lightweight nylon composite which is torque resistant and waterproof. A rubber inlay provides non-slip blade mount and superior shock absorption.

Width Options

All Fusion Series skates feature our Heat Moldable Fit System, allowing for a versatile fit in two widths; R (A & B) and W (C & D). With improved patterns providing additional wrap and shaped cuffs, Fusion Series skates fit all ankle types and foot shapes.
