Design Innovation That Drives Performance of  
World Class Skaters and Aspiring Champions

## THE TECHNOLOGIES

# Matrix

33%  
LIGHTER!

- Lighter and faster with the superior edge life of stainless steel
- Enhanced edge control through tapered design in Advanced Series

## SUPERIOR QUALITY

*Superior blade manufacturing processes deliver industry leading consistency and quality*

- Titanium coating for superior edge life and speed
- Advanced control through tapered edge design

- Legacy Lite design in a lightweight blade
- Ideal for intermediate skaters

# #JacksonFamily

## AMBER GLENN

*"The attention to detail and support really makes me feel like a valued member of the #JacksonFamily!"*

Grand Prix Medalist  
US Medalist  
US Junior Champion  
Junior Grand Prix Medalist

## JASON BROWN

*"The Matrix dovetail is completely amazing. Jackson Boots are one with my feet, just love them."*

Olympian (Team Medalist)  
Grand Prix Medalist  
Four Continents Medalist  
US Champion  
Junior Grand Prix Champion

## DEANNA STELLATO- DUDEK & MAXIME DESCHAMPS

*"We absolutely love the look and feel of our Apex and Matrix blades!"*

Grand Prix Champion  
Canadian National Champions

## KAREN CHEN

*"I absolutely love my Matrix blades, they are everything I need to stay on my feet."*

Olympian (Team Medalist)  
US Champion  
Junior Grand Prix Champion

# Matrix RXS

**FRESH EDGES with RUNNER EXCHANGE SYSTEM**

## PERFORMANCE

As blade height decreases, the rocker position is altered. The ability to change runners allows skaters greater consistency in the sweet spot, eliminating the need to get accustomed to new blades & rockers.

## CONVENIENCE

A spare set of specifically sharpened runners provides convenient consistency and confidence in the case of an emergency.

[CLICK FOR MORE](#)

## MAINTENANCE

The runners fit all machines, so no need for special jigs or attachments. Also, there is no need for a smaller wheel, meaning the profile can be sharpened all the way through without a flat spot behind the pick, drastically aiding with axel take-off.

## LIGHTWEIGHT PERFORMANCE

**Lighter, Faster, with the Superior Edge Control of Stainless Steel**

SUPREME  
MX7150

Cross Cut Pick

ELITE  
MX7105

Straight Cut Pick

- Lightweight Aircraft Grade Aluminum Chassis
- Stronger Japanese AUS8 Stainless Steel Runner

Stainless steel is harder than carbon steel, creating faster glide with enhanced edge control and less frequent sharpening.

**Our superior edge control is created through a tapered design:**

This unique design results in a quieter skating performance and superior edge control with better grip to the ice.

## Titanium Coating for Longer Edge Life Tapered Edge Design

- Wider Runner Base for enhanced stability on Twizzles
- Cut-out design for lighter weight
- 7' rocker design and short heels for enhanced maneuverability
- Higher Stanchion for deeper edge
- Tapered Edges create less friction in comparison to traditional edges, resulting in better edge control and faster glide.
- Titanium coating hardens the steel for increase edge life and less frequent sharpening.

Straight

# BLADE F

Our blade families allow skaters and their coaches to select a preferred skating skills evolve. A consistent rocker

## DIAGONAL CUT FAMILY

## STRAIGHT CUT FAMILY

Advanced

Matrix RXS Freestyle

Matrix / Matrix RXS Elite

Apex Freestyle

Apex Elite

Intermediate

Mirage

- Incorporates a Diagonal Cut Pick design, providing a lower drag tooth & lift angle
- Allows you to get to the toe pick faster for take offs on jumps

- Incorporates a Straight Cut Pick design, meaning there is a higher drag tooth and bigger 2<sup>nd</sup> pick than diagonal family for better stability on take offs
- Slightly higher lift angle than diagonal family allows for easier spins

# FAMILIES

pick pattern and transition from an intermediate level to advanced as their  
eases the transition within each family.

## CROSS CUT FAMILY

## 7' ROCKER FAMILY

Advanced

Intermediate

- Incorporates an Advanced Cross Cut Pick Symmetry - excellent for those hitting the toe picks too fast
- The highest lift angle and drag tooth of the 3 families, superior for spins & axle take offs

- Features 7 foot rocker for enhanced maneuverability required in Dance & Synchro disciplines
- Higher stanchions on Dance & Synchro blades provides the advantage of deeper edges
- With the enhanced maneuverability of a 7' rocker, Legacy Lite 7 is an ideal solution for skaters competing in both Freestyle and Synchro disciplines
