Legendary Combinations

With our **Heat Moldable Fit System**, heat is used to soften and mold the boots. As the boot cools, it retains the shape of your foot, even in cold climates; more versatile fits across boot widths.

Our **Fusion Sole** is constructed from lightweight nylon composite which means it is torque resistant and waterproof. The rubber inlay provides a non-slip blade mount & superior shock absorption.

The **Aspire footbed** is indicative of a great insole paired with our Fusion Series Complete Skates.

Learn-to-Skate Approved means the Complete Skate is a fantastic option for skaters starting out in a beginners' program.

Scented tells us the product has intentional scent added.

Warm indicates that the product may change tones in different temperatures and that you are seeing the warm version.

Cold indicates that the product may change tones in different temperatures and that you are seeing the cold version.

Welcome to comfort. Our **Softec** skates are engineered for comfort, warmth and durability. They are the industry leader in sport and figure-style recreational skates.

Our **Ultima blades** are integral to our Complete Skates. Each of our boots is paired with the appropriate blade design for the skill level of the skater, offering the Perfect Match.

The appropriate level of support is so important to a skater's performance and skill development. Injury prevention too! Dependent upon skill level and physical characteristics, there can be many factors to consider. Our **Support Rating System** makes it easy to select your boot of best fit.

Please note: These charts are only intended as a guideline to assist in product selection. Always consult an authorized Jackson Ultima Retailer for an outfit of best fit.

All Complete Skates come with factory-sharpened blades.

A global leader in figure skating boots and blades, we are obsessive in our endeavours to elevate the performance and comfort of skaters world-wide. Offering a complete range of competitive to recreational and leisure skates, we are committed to bringing the joy of skating to all. After all, ***skating is for everyone.***

From our point of view, the importance of healthy humans is paramount. We also recognize the ***weight*** words hold. We have redefined our charts to reflect that, as well as the reality that we craft products that are subject to the rules of physics. Without getting too technical, the values represent the products we suggest given the physical demand that will be expected of them. We believe in providing the best skating experience for everyone, and that strength and power come in all shapes and sizes.

boots + blades = 

Fusion

Our Fusion Series skates are adorned with inlaid Swarovski crystals in each microfiber upper - the perfect combination of lightweight and style. While the U-shaped cuff pattern and adjusted back height allows for the most flexibility without sacrificing support, these Complete Skates are a fantastic example of technology meeting comfort. Made using Jackson's Elite Last, all skates in the Fusion Series provide a wider toe box - reducing pressure - and boast narrower heels for better heel-lock and stability.

Fusion Series

FREESTYLE

Ultima Aspire XP Blade

✓ Single Jumps

MODEL	FREESTYLE	SIZES	WIDTHS	SUPPORT LEVEL
FS 2190	Women's	4 - 10	R (A/B), W (C/D)	45

FB 7000

Support Redefined

Double Poron pads for increased shock absorption through the heel

Made from bamboo charcoal fabric, offering a far-infrared release rate of >80%, helping with circulation & warmth

Featuring a raised metatarsal pad, offering more cushion to the ball of the foot, especially during impact

A multi-function layer that provides ventilation & deodorization, while offering anti-slip shock absorption

Protective arch support

Firm orthopedic materials to enhance stability

Unique memory layer that, in addition to arch support, aids in correcting alignment, leading to better balance & more comfort

Rigid structural layer wraps the heel for increased support & balance
