REVO 2

COMPOSITE QUARTER

Tour brings you a brand new
Injected Quarter fit system that will
deliver a Full Energy transfer.
It has everything you need and
nothing you don't!

a.r.c.
TONGUE

The debut of the ARC tongue featuring our most technically advanced tongue yet. Instantly re-position or swap out tongues with the custom Velcro strap. Added tongue felt in the toe box eliminates the negative space between your toes and toe cap, which makes the skate more comfortable and provides better stability and control. Aero Ridge Anti-Lacebite channels distribute tension points eliminating uncomfortable lacebite.

ACCU-AIRE
LIGHTWEIGHT TONGUE

Our Accu-Aire Lightweight Tongue Technology that will eliminate lace bite, increase air cooling and reduce weight for a strong and durable fit.

Your skate can now breathe through vents in the boot that when combined with the ACCUAIRE Lining give your skates a cooler ride while maximizing the life span of the boot through better drying.

RELAY MEMORY FOAM
SENSOR FIT PRO

Sensor Fit Pro Liner and Relay Memory foam deliver unequalled fit. High density memory foam, combined with proprietary new foam, blends in strategic areas to deliver superior performance.

VOLT SPITFIRE BLACK

WARRANTY

Skates are warranted for 90 days from the date of purchase against factory defects. Normal wear or abuse is not to be considered as defective.

These skates are not designed for Rental or Commercial use. Warranty is voided if used for Rental or Commercial use.

Roller Derby® reserves the right to repair or replace the skate if determined to be defective.

Skates can be sent back to Roller Derby® (freight prepaid) for inspection. The original retail receipt and a written explanation of proposed defect must accompany the return. If the skate is determined to be defective, Roller Derby® will return the repaired or replacement skate to the sender (freight prepaid).
