## YEARS OF FIGURE SKATING

2026 marks a milestone in our story—Jackson Ultima’s 60th anniversary. What began with the vision of World Champion and Olympic Medalist Don Jackson has grown into a brand trusted by skaters around the globe. For six decades, our passion has been to equip skaters of every level with the very best skates, boots, and blades—crafted through innovation, dedication, and an unwavering commitment to the skating community. From first steps on the ice to the most breathtaking performances on the world stage, Jackson Ultima has been there to support the journey.

Don Jackson’s legacy is at the heart of who we are. His historic triple lutz, his achievements as an athlete, and his lifelong dedication to the sport embody the drive, courage, and artistry that inspire our mission. As we celebrate 60 years, we honor his vision by continuing to push boundaries, listen to skaters, and create products that empower them to reach new heights. The future of skating is bright, and at Jackson Ultima, we are proud to carry Don’s legacy forward—building on six decades of excellence as we look to the next chapter with the same passion that started it all.

# LEGEND

## What does it all mean?

With our Heat Moldable Fit System, heat is used to soften and mold the boots. As the boot cools, it retains the shape of your foot, even in cold climates; more versatile fits across boot widths.

The Aspire footbed is indicative of a great insole paired with our Fusion Series Complete Skates.

Warm indicates that the product may change tones in different temperatures and that you are seeing the warm version.

Our Ultima blades are integral to our Complete Skates. Each of our boots is paired with the appropriate blade design for the skill level of the skater, offering the Perfect Match.

Our Fusion Sole is constructed from lightweight nylon composite which means it is torque resistant and waterproof. The rubber inlay provides a non-slip blade mount & superior shock absorption.

Learn-to-Skate Approved means the Complete Skate is a fantastic option for skaters starting out in a beginners' program.

Cold indicates that the product may change tones in different temperatures and that you are seeing the cold version.

The appropriate level of support is so important to a skater's performance and skill development. Injury prevention too! Dependent upon skill level and physical characteristics, there can be many factors to consider. Our Support Rating System makes it easy to select your boot of best fit.

Scented tells us the product has intentional scent added.

Welcome to comfort. Our Softec skates are engineered for comfort, warmth and durability. They are the industry leader in sport and figure-style recreational skates.

A global leader in figure skating boots and blades, we are obsessive in our endeavors to elevate the performance and comfort of skaters world-wide. Offering a complete range of competitive to recreational and leisure skates, we are committed to bringing the joy of skating to all. After all, **skating is for everyone.**

**Please note:** These charts are meant only as a guideline to assist in product selection. Always consult your authorized Jackson Ultima Retailer for an outfit of best fit.

From our point of view, the importance of healthy humans is paramount. We also recognize the weight words hold. We have redefined our charts to reflect that, as well as the reality that we craft products that are subject to the rules of them. We believe in providing the best skating experience for everyone, and that strength and power come in all shapes and sizes.

## All Complete Skates come with factory-sharpened blades.

# Fusion Series

Our Fusion Series skates are adorned with inlaid Swarovski crystals in each microfiber upper - the perfect combination of lightweight and style. While the U-shaped cuff pattern and adjusted back height allows for the most flexibility without sacrificing support, these Complete Skates are fantastic examples of technology meeting comfort. Made using Jackson's Elite Last, all skates in the Fusion Series provide a more round toe box - reducing pressure - and boast narrower heels for better heel-lock and stability.

## Freestyle Ultima Aspire XP Blade

### ✓ Single Jumps

Model	Description	Sizes	Widths	Support Level
FS2190	Women's Freestyle	4-10	R, W	45 Moderate
FS2191	Misses Freestyle	1-3.5	R, W	40 Moderate

# PROSUPPORT + FB7000

## Support Redefined

Double Poron pads for increased shock absorption through the heel

Made from bamboo charcoal fabric, which has a far-infrared release rate of >80%, helping with circulation and warmth

Featuring a raised metatarsal pad that redistributes pressure, improves circulation, and enhances stability & control

A multi-function layer that provides ventilation & deodorization, while offering anti-slip shock absorption

Protective arch support

Subtalar joint lock, guiding the foot through the intricate skating movement while preventing over pronation or over supination

Unique memory layer that, in addition to arch support, aids in correcting alignment, leading to better balance and more comfort

Rigid structural layer wraps the heel for increased support and balance

# Jackson Luggage Skate Bag
